IPA taskforce on Cleaning up of National rules

1st meeting Istanbul 27-06-2019

1st IPA-Task Force "cleaning up of national rules"

ISTANBUL - Thursday, 27th of June 2019

Adress: TCDD Fenerbahçe Sosyal Tesisleri

Fenerbahçe Mahallesi

Caddesi (Fener Kalamış Road), Atlıhan Sokak (Atlıhan Street), Nu:97/1

Kadıköy/İstanbul

Draft Annotated Agenda

Start: 09.00h (local time) - end: 16.00h (local time)

Please note – all indicated times are Istanbul local time!

<i>Time</i>	<i>Item</i>	<i>Speaker(s)</i>
08:30 – 09:00	Registration of Participants	
09:00 – 09:15	Welcome of the participants	Peter Mihm (ERA)
	Opening of the meeting, practical information by the hosts	TCDD-representative
09:10 – 09:30	Agreement on agenda and tour de Table short presentation of participants	All
09:30 - 09:40	Actual information on Activities related to IPA	Peter Mihm (ERA)
09:40 – 11:00	Aim, Structure, Organisation and working procedure of the taskforce for cleaning up of national rules (how to compare and classify rules applied, discussion and composition in taskforce meetings, results to be documented ...)	
11:00 - 11:20	Coffee break	
11:20 – 13:00	Structure of Spreadsheet – list of parameters, working method for classification	
13:00 – 14:00	Lunch Break	
14:00 – 15:00	Continuation – taskforce cleaning up of rules – spreadsheet	
15:00 – 15:30	Conclusions of the taskforce meeting preparation of 2nd meeting of the taskforce	
15:30 – 15:45	IPA summit 2019 – preparations and next steps (signing of Safety Culture Declaration 13/14th of November 2019)	
15:45 – 16:00	AOB	
16:00	End of the meeting

Subject : **National Reference Document for Slovenia – Version 1.1**

Dear Mr. Mihm,

Please find enclosed an updated signed version 1.1 of the national reference documents for the Republic of Slovenia. Document was updated in certain point and is different from version 1.0.

The updated version was delivered to the ERA by e-mail and regular post.

Your sincerely,

Prepared by: Zvonko Kopčič

By Authorisation no: 909 -1/2010 ZP 30
from date 03.06.2010

Benjamin Steinbacher Pušnjak

- **Enclosure:** National Reference Document: Slovenia (23 Pages)

The European Union Agency for Railways makes available the Reference Document Database-RDD in order to facilitate the access to the rules applied in conjunction with the authorisation of railway vehicles in the Member States of the European Union plus Norway. For more information about the usage of this tool, the User Manual can be found at [EU User Manual](#). The [Reference Document Application Guide v.3.0](#) refers to the elements included in the Commission Decision 2011/155/EU, and any other information relevant for the management, understanding and use of the reference document. Version 3.0 is available in all European languages.

#CCRCC2019 – The ERTMS conference

15-17

Oct
2019

Location: Valenciennes

Participants: EU rail stakeholders, EU and national politicians, signalling experts, IT experts

European Union Agency for Railways (ERA)

at Valenciennes

VALENCIENNES - FRANCE

15/10/2019, 14h00 – 18h30

16/10/2019, 09h00 – 18h50

17/10/2019, 09h00 – 16h30

Following the successful events in 2015 and 2017, it is our pleasure to announce the **#CCRCC2019 / ERTMS conference held from 15-17 October in Valenciennes.**

▼ Related documents

Following the successful events in 2015 and 2017, it is our pleasure to announce the **#CCRCC2019 / ERTMS conference held from 15-17 October in Valenciennes.**

After having reached system maturity with stable specifications, ERTMS roll out has been intensified under the European Commission's action plan. With the entry into force of the Fourth Railway package, digitalisation and the advent of big data, the rail sector is facing new challenges, which will be addressed at the conference.

Identifying common ground among Europe's leading ERTMS experts - from the European Commission, the railway sector, vendors, users, and the ERA - shall ensure a smooth transition from the status quo into the digital future.

In order to get participants more involved and to foster dialogue among the community we have added one conference day, in which workshops will be held that will feed into the conference sessions on days two and three. In session one there will be 6 workshops in parallel and in session two 5 of them will be repeated. This arrangement will give you the flexibility to attend 2 workshops covering different topics.

The conference topics will be:

- **ERTMS deployment** > what can be expected for the TSI CCS 2022/2023 release?
- **Vehicle Upgrade and vehicle authorisation topics** > experience and challenges from current projects.
- **ERTMS regulatory and funding framework** > status quo, first experience and outlook
- **Communication** > future railway mobile communication system (FRMCS) and GSM-R migration
- **Future transport system – Rail and CCS evolution** > digitalisation and big data shaping the future rail system

Attendance to the conference is subject to a registration fee of **200 Euros**. This registration fee covers the activities listed in the agenda and includes coffee breaks, lunch breaks and a cocktail in the evening of the 16th October.

Safety Culture declaration

IPA summit 2019 13-14 November 2019 Belgrade

The European Railway Safety Culture Declaration
United for Railway Safety

The European Railway Safety Culture Declaration

United for Railway Safety

This declaration demonstrates the commitment of leaders and authorities in the entire European railway sector, to raise awareness and promote a positive safety culture. A positive safety culture reinforces the effects of a Safety Management System, improving the capability and efficiency of safety management.

As railway leaders signing this declaration, we agree the following:

- › *Safety is a main driver of the efficiency and reliability of railway services. Safety must not be compromised when different business goals conflict. Our vision statements, targets and indicators, resource allocation, and all aspects of strategy and daily operations will support this. Good safety management is proactive relying on a risk-based approach.*
- › *Our organizations will promote safety, reporting and just culture principles amongst management, employees and with other parties, including authorities, contractors, suppliers, and service providers. Together, we will actively foster mutual respect, support and cooperation to build trust across our organizations and create a shared understanding of workplace reality.*
- › *Safety is an individual responsibility commensurate with the training, experience, and professional standards that fit the role or function. Our organizations are responsible for encouraging positive safety behaviour and providing the appropriate environment to allow work to succeed safely, including job design, tools, training and procedures.*
- › *In an operational railway environment, individuals, despite their training, expertise, experience, abilities, and goodwill, may be faced with situations where the limits of human reliability combined with unwanted and unpredictable systemic influences may lead to an undesirable outcome. Our organisations are committed to taking the necessary steps to manage risks including those related to the limits of human reliability.*
- › *Investigation and analysis of occurrences shall address system performance, the conditions and factors that influence work practice rather than on apportioning blame or individual responsibility. This approach is to be followed except in cases of gross negligence, wilful violations and destructive acts which seriously compromise the level of railway safety.*

Safety Culture declaration

IPA summit 2019 13-14 November 2019 Belgrade

EUROPEAN COMMISSION
EUROPEAN UNION AGENCY FOR RAILWAYS

The European Railway Safety Culture Declaration
United for Railway Safety

- › *Positive safety behaviour and initiatives are to be captured and shared within and across organisational boundaries to demonstrate that we value the continued improvement of safety.*
- › *Individuals at all levels in our organisations take part in actively defining how to continuously develop, promote and regularly assess organisational principles and practices to foster a positive safety culture.*

**Together, we can reach our goal for the European Union
to be the world leader in railway safety.**

ERA – Safety Culture understanding

Safety culture refers to the interaction between the requirements of the Safety Management System, how people make sense of them, based on their attitudes, values and beliefs and what they actually do, as seen in decisions and behaviours.

A positive safety culture is characterised by a collective commitment by leaders and individuals to always act safely, in particular when confronted with competing goals.

Legal references: Recast Railway Safety Directive - Directive (EU) 2016/798

Recital 10: Member States should promote a culture of mutual trust, confidence and learning in which the staff of railway undertakings and infrastructure managers are encouraged to contribute to the development of safety while confidentiality is ensured

Article 9 (2): Through the safety management system, infrastructure managers and railway undertakings shall promote a culture of mutual trust, confidence and learning, in which staff is encouraged to contribute to the development of safety while ensuring confidentiality.

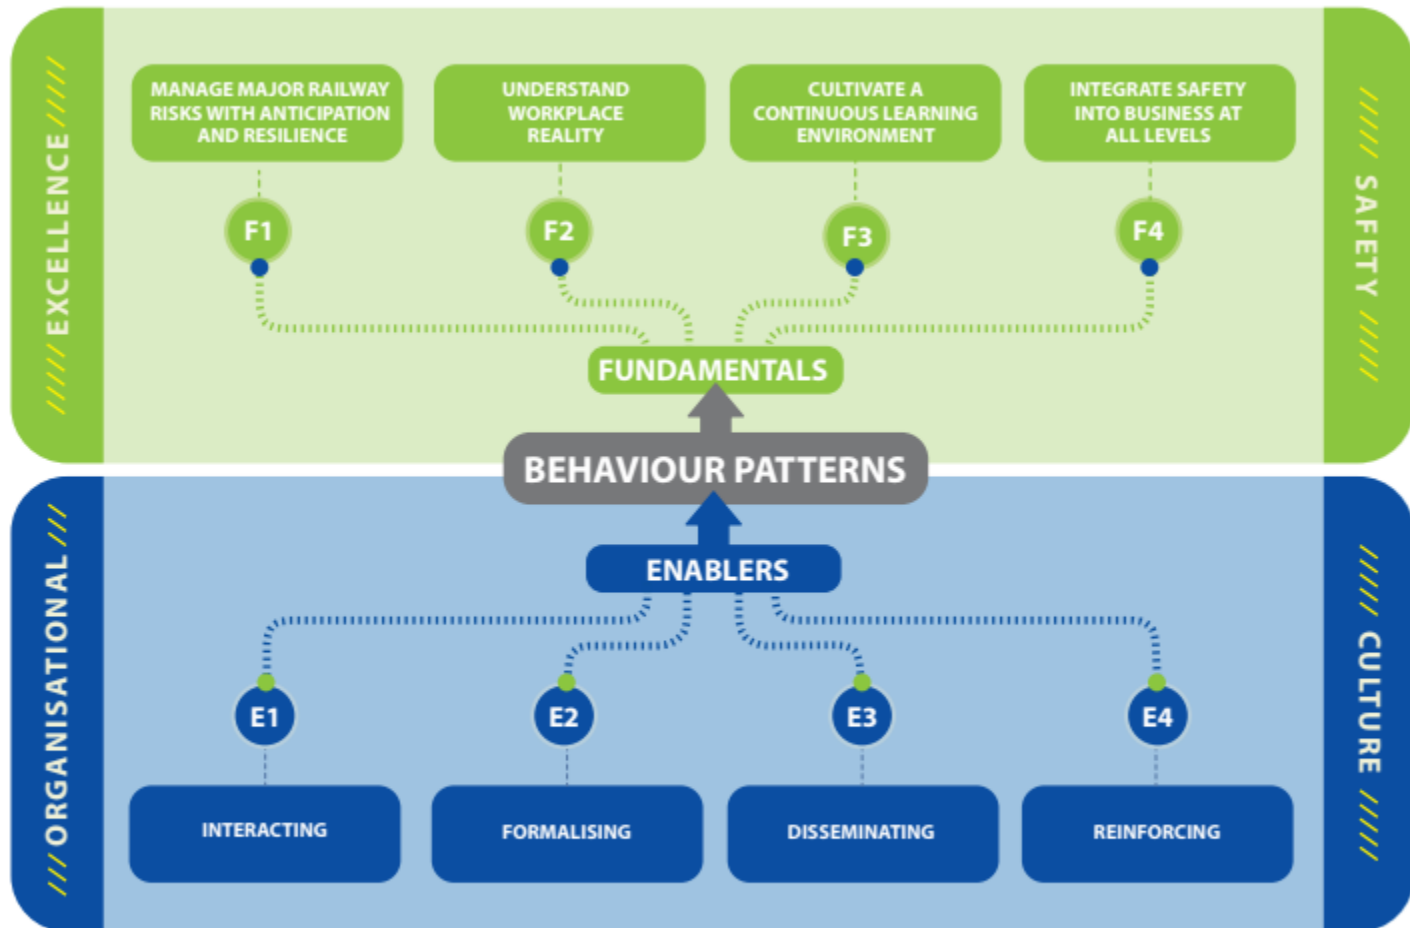

Article 29 (2): The Agency shall evaluate the development of a safety culture including occurrence reporting. It shall submit to the Commission, by 16 June 2024, a report containing, where appropriate, improvements to be made to the system.
