

Road Safety priority measures for endorsement at the WB Summit in Poznan

Liljana ÇELA, Desk Officer for Road Safety
Transport Community Secretariat

Regional Steering Committee, 19th June 2019, Belgrade

Introduction- context

- ❖ Transport Community Treaty- entered into force; legal basis for transport Article 12 of TCT- *the Contracting Parties shall promote efficient, safe and secure road transport operations.*
- ❖ *Study for preparing a three year plan for Road Safety inspections on the indicative extension of TEN-T Road Core/Comprehensive Network in the Western Balkans – completed by Connecta (June 2017-July 2018)*
- ❖ Western Balkans Declaration on Road Safety– signed in Ljubljana in April 2018
- ❖ *Technical Committee on Road Safety* to be established (pending nominations from RPs) – first meeting will be held on 02.10.2019 in Podgorica.

Road Safety Inspections Activities

- ✓ Map existing core and comprehensive road network in Western Balkans
 - Compile a list of all Road Safety Inspections that have been implemented during the last 3 years (2014-2016)
 - Including those done by EuroRAP/iRAP inspection methodology
- ✓ ***Prepare a three-year Plan (2018-2020) for road safety inspection*** for the core and comprehensive road network
- ✓ ***Undertake pilot road safety inspections*** on the core and comprehensive road network:
 - ✓ On 10% (approx. 550 km (**actually 580 km were carried out**))
 - ✓ On those considered highest risk portion of the **network based on fatal crash data**

Results of the Road Safety Inspections
