

# Road Safety in the Western Balkans

**Derran Williams**, Senior Health and Safety Advisor

October 2019

**European Bank**  
for Reconstruction and Development

29. The client will **identify, evaluate and monitor the potential traffic and road safety risks to workers and potentially affected communities** throughout the project life cycle and, where appropriate, will develop measures and plans to address them. For projects that operate moving equipment on public roads and other forms of infrastructure, the client will seek to prevent the occurrence of incidents and injuries to members of the public associated with the operation of such equipment.

30. The client will take into consideration relevant **EU road and traffic safety management standards**, identify road safety measures and **incorporate technically and economically feasible and cost-effective road safety components into the project design** to mitigate potential road safety impacts on the local affected communities. Where appropriate, the client **will undertake a road safety audit** for each phase of the project and routinely **monitor incident and accident reports to identify and resolve problems or negative safety trends**. For clients with vehicles or fleets of vehicles (owned or leased), the client will provide appropriate training to workers on driver and vehicle safety. The client will ensure regular maintenance of all project vehicles

# Road Safety Approach

# Past Activities – Road Safety Engineering Training

European Bank  
for Reconstruction and Development

The banner features the logos of the European Bank for Reconstruction and Development and iMC worldwide. The text reads: 'ROAD SAFETY WORKSHOP', 'EBRD WESTERN BALKANS ROAD SAFETY BENCHMARKING PROJECT', '14th - 15th November 2017', 'Hilton Hotel, Podgorica', 'MONTENEGRO'. It also includes the flag of Montenegro and a yellow diamond-shaped road sign with a black border and the text 'ROAD SAFETY'.

- Training on Road Safety Engineering and Road Safety Auditing for designers and road agencies
- Share best international practice
- Delivered in Bosnia and Herzegovina, Albania, Macedonia and Montenegro

# Past Activities – Road Safety Audits

European Bank  
for Reconstruction and Development

- Past 5 years **16** Road Safety Audits completed across Albania, Bosnia and Herzegovina, Montenegro, Macedonia, Kosovo and Serbia
- **268.9 kms** in total audited
- **358** Recommendations made
- Between **70-80%** recommendations accepted
- Biggest barrier - **Cost!**

# Past Activities – iRAP Star Rating Assessment

European Bank  
for Reconstruction and Development

- iRap Star Rating Assessment completed in Bosnia and Herzegovina
- Pilot test for the Bank to identify benefits of the iRAP star rating assessment
- Road Section achieved **3 Star Rating**

- Assist with the implementation and certification of ISO 39001 Road and Traffic Safety Management Systems at the National Level in Serbia
- Training PERS staff in road safety management practices
- Develop local capacity in Serbia – knowledge transfer

# Current Activities – Road Traffic Collision Database

European Bank  
for Reconstruction and Development

- Development of road traffic collision database within the Ministry of Communications and Transport of Bosnia and Herzegovina
- Assist in implementing a comprehensive data collection strategy and protocol for sharing and dissemination of information to relevant agencies

# Current Activities – eLearning Training Course
