

**UPDATE: Situation monitored by the TCT Secretariat on 10 April 2020**

**WESTERN BALKANS**

No change since previous report.

**MONITORING OF MARITIME PORT OPERATIONS**

**Port of Durres**

Two ships are being unloaded, transporting grain from Russia and wood byproducts from Turkey.

Ferry coming from Bari is expected tonight, carrying only goods trucks/trailers.

**MONITORING OF ROAD BORDER CROSSING WAITING TIME**

**WB6 INTERNAL BORDERS**

All data comes from Western Balkans partners reports/measuring, official information from [Croatia](#), [Hungary](#), [Romania](#) and [road transport hauliers unofficial reporting](#). Priority was given to WB6 official reporting (collected by the TCT on a daily basis), information from EU Member States and road hauliers being only used to bridge the gaps. The chart above reflects the BCP situation at 12.00 h. All figures are indicative, as traffic volumes at all border crossing points are fluid and the situation might significantly change within hours (especially where transit is being organised in convoys). The Transport Community accepts no responsibility or liability whatsoever for either the correctness, completeness, verity and actuality of such figures and recommends all road users to seek for updated data on a regular basis and take business decisions on the basis of all available sources of information.
