

Monitoring waiting time at WB internal borders (April-May 2020) : a first assessment of the post-COVID 19 trends

Since the Joint proposal prepared by TCT Permanent Secretariat and CEFTA Secretariat to facilitate the transport and trade of essential goods within the Western Balkans, we have been monitoring the waiting times at the borders in close cooperation with the respective authorities.

Daily monitoring has shown no major jams at Western Balkans internal borders during the past 2 months. During May, the waiting times across the region have remained at April's situation or with slight improvements, while significant time saving is reported at Sremska Raca/Raca (SRB/BiH) by 24 minutes at the inbound waiting time.
