

## Monitoring of EU/Western Balkans 6 land borders Weekly overview (07<sup>th</sup> – 11<sup>th</sup> of September 2020)

### BORDER MONITORING

During the second week of September Batrovci/Bajakovo has replaced Horgos/Roszke as the busiest of all Border Crossing Points in the region, confirming its overall worsening trend. In Horgos/Roszke the decrease in waiting time on SRB-HUN direction was compensated by a significant increase on HUN-SRB side which is usually less crowded. Gradina/Kalotina seems to have returned on an improving trend, while no significant variations were recorded in the other Border Crossing Points under monitoring, as shown in the table below.
