

Monitoring of EU/Western Balkans 6 TEN-T land borders Weekly overview (15 – 19 February 2021)

BORDER MONITORING

Horgos/Roszke kept performing well last week, the slight increase in waiting times on SRB-HUN direction being compensated by a comparable decrease on the opposite side. An improvement was also seen in Batrovci/Bajakovo who remained, though, the most crowded of the EU/WB6 BCPs. Situation worsened in Gradina/Kalotina where high daily variations were registered and Kakavija/Ktismata. A slight improvement could be noted in Vatin/Stamora Moravita and Gradiska/Stara Gradiska, while for the other BCPs under monitoring the situation has remained more or less stable.
