

Monitoring waiting time at WB internal borders (February – March 2021)

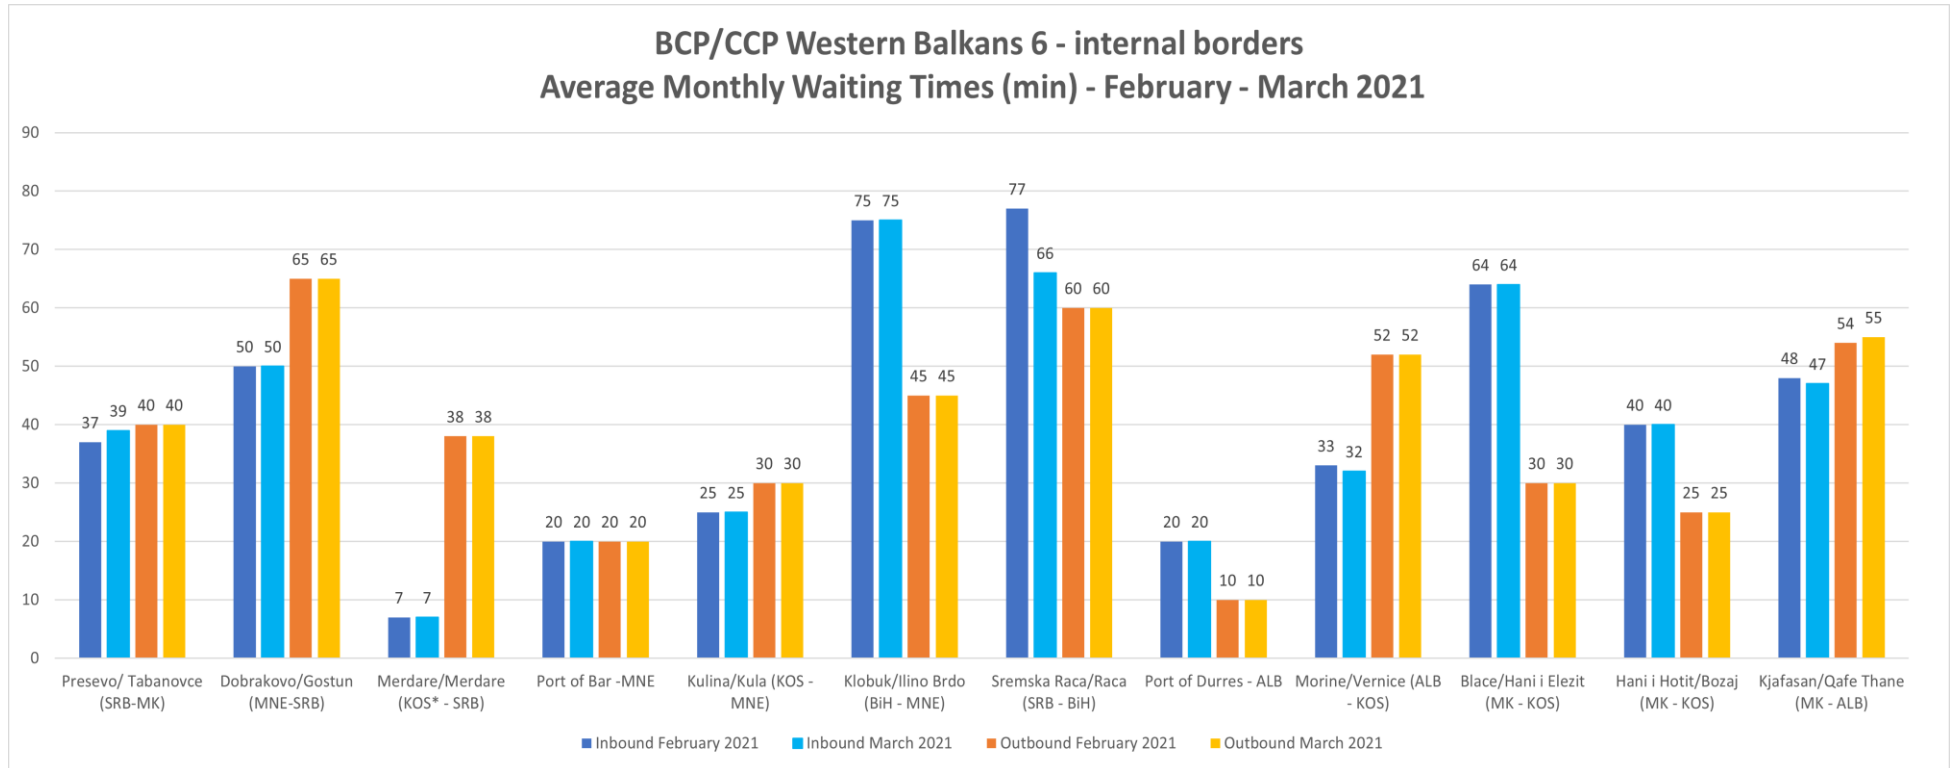

Since the Joint proposal prepared by TCT Permanent Secretariat and CEFTA Secretariat to facilitate the transport and trade of essential goods within the Western Balkans, we have been monitoring the waiting times at the borders in close cooperation with the respective authorities.

Daily monitoring has shown no major jams at Western Balkans internal borders during the past 2 months. During March 2021, the waiting times across the region have remained almost at the level of February 2020 times. A decrease of waiting times was reported for **Sremska Raca/Raca** on SRB-BIH direction (-11 min).
