

## Monitoring of EU/Western Balkans 6 TEN-T land borders Weekly overview (28 June – 2 July 2021)

### BORDER MONITORING

During the last week of June, Kakavija/Ktismata was the only BCP under monitoring where a slight improvement was noticed. Vatin/Stamora Moravita got worse on SRB-RO direction while in Gradiska/Stara Gradiska and Gradina/Kalotina waiting time increased in both directions. Traffic was particularly intense in Horgos/Roszke where new record high was reached on SRB-HUN direction. Batrovci-Bajakovo also got worse despite a slight decrease on SRB-HR direction, because of a more significant increase on HR-SRB side. All the other BCPs under monitoring remained stable.
