

Monitoring waiting time at WB internal borders (July - August 2021)

Since the Joint proposal prepared by TCT Permanent Secretariat and CEFTA Secretariat to facilitate the transport and trade of essential goods within the Western Balkans, we have been monitoring the waiting times at the borders in close cooperation with the respective authorities.

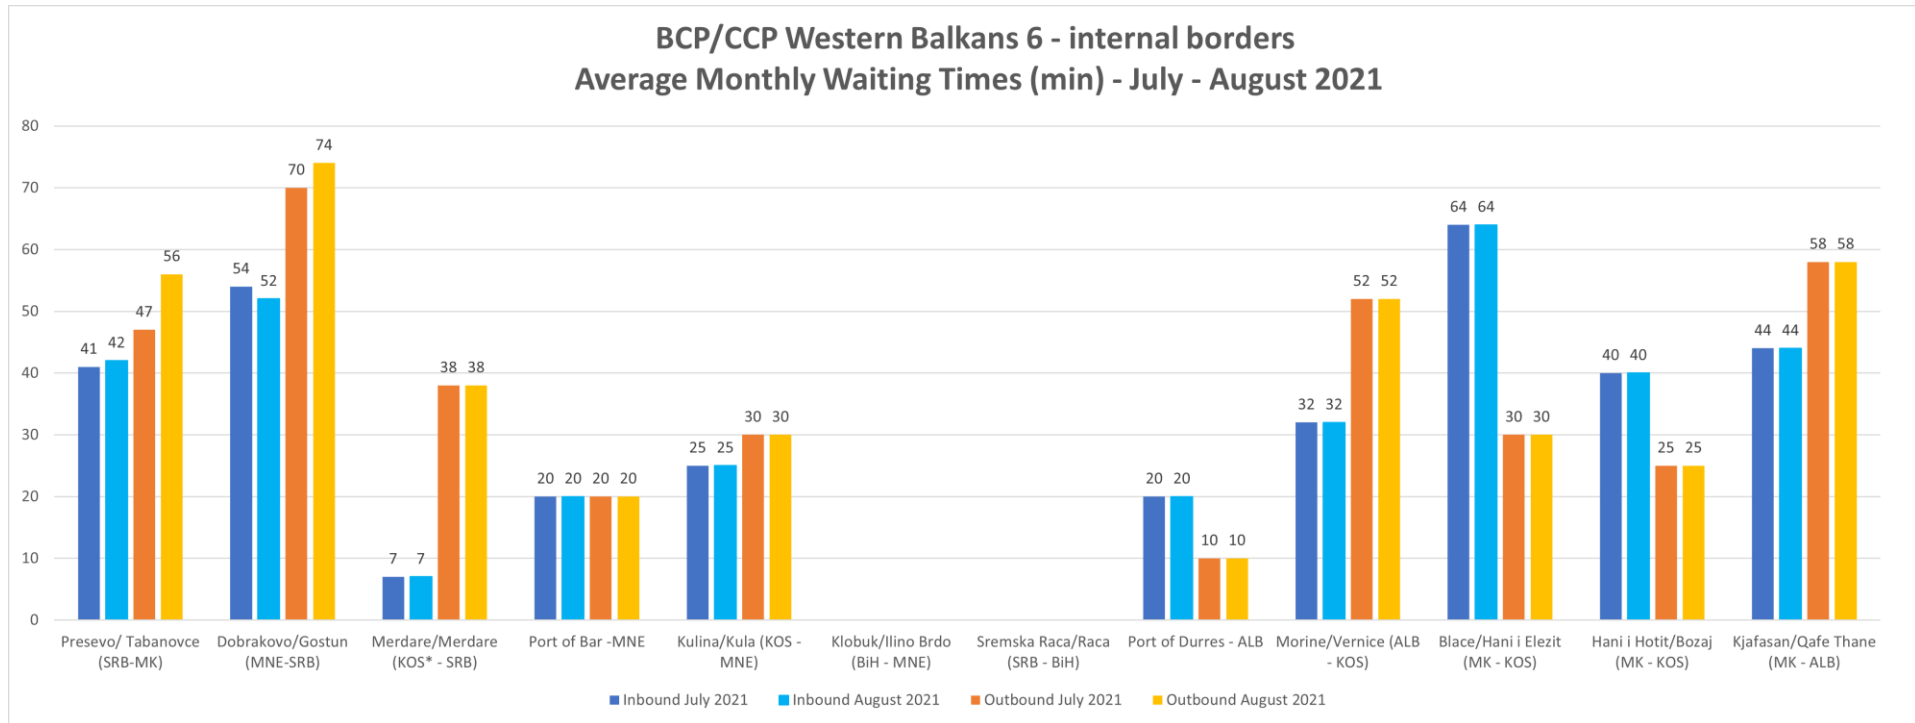

Daily monitoring has shown no major jams at Western Balkans internal borders during the past 2 months. During August 2021, the waiting times across the region have remained stable. Small increase of waiting times was noticed on **Presevo/Tabanovce** (MK-SRB: 9 minutes).

Note: data for **BiH** has not been delivered throughout the entire month of August, therefore waiting times could only be followed according to SRB data.

1. WB6 Internal borders – Average Monthly Waiting Times (August 2021)

2. WB6 Internal borders – Average Monthly Waiting Times (July vs. August 2021)

3. WB6 Internal borders – Inbound/Outbound waiting times distribution range (July, August 2021)
