**Tanks**

**Battery vehicles**

**pressure receptacles**
3. Authorisation of the body for the implementation of the conformity assessment procedure for packaging, transportable pressure equipment and tanks

- 2. step (Regulation on transportable pressure equipment)

- Fulfillment of the requirements is checked by the commission

Conditions:

1) three employees from the scientific or professional field of mechanical engineering with at least five years of experience in performing conformity assessment tasks

2) one employed person with a diploma of European welding engineer or international welding engineer;

3) two employees with certificates of completion of the visual examination course;

4) insurance policy
3. Authorisation of the body for the implementation of the conformity assessment procedure for packaging, transportable pressure equipment and tanks
4. Issuing the approval of an expert who checks a tank, battery vehicle or MEGC (expert approved by the competent authority - ADR/RID)
4. Issuing the approval of an expert who checks a tank, battery vehicle or MEGC (expert approved by the competent authority - 6.8 ADR/RID)
5. Issuance and revocation of a license for the professional training of candidates for safety advisors, drivers and persons with a certificate of specialist knowledge in the field of ADN in the transport of dangerous goods.
6. Issuance of a certificate for safety advisors in the transport of dangerous goods

Step 1.
Article 38 of the Law stipulates that professional training of security advisor candidates is carried out by a business company, or other legal entity, based on the license for the professional training of security advisor candidates issued by the ministry.

Step 2.
Article 39 of the Law stipulates that issuance of a certificate must take place before an examination board formed by the minister.

1.8.3.18 ADR, Form of certificate
7. Issuance of the ADR certificate of professional competence for the driver of a vehicle for the transport of dangerous goods

1. Step

Article 40 of the Law stipulates that the professional training of candidates for the performance of the duties of drivers of vehicles for the transport of dangerous goods shall be carried out by a business company, that is, another legal entity, on the basis of the authorization issued by the Ministry of Construction, Transport and Infrastructure.

Step 2.

Article 43 of the Law stipulates that the participant in the transport is obliged to entrust the transport of dangerous goods to a driver who has a valid certificate of professional competence for the driver of a vehicle for the transport of dangerous goods (hereinafter: ADR certificate for a driver), which is issued by the ministry after an examination.

8.2.2.8.5 ADR Model for the training certificate for drivers of vehicles carrying dangerous goods
8. Issuance of a certificate of professional competence of a person with a certificate of specialist knowledge in the field of ADN

1. Step

Article 40 of the Law stipulates that the professional training of candidates for performing the duties of a person with a certificate of specialist knowledge in the field of ADN is carried out by a business company, or another legal entity, based on the authorization for professional training issued by the Ministry.

Step 2.

Article 57 of the Law stipulates that a participant in inland waterway transport is obliged to designate employees who are professionally qualified for the work in the transport of dangerous goods, whose professional qualification is proven by a certificate of specialist knowledge in the field of ADN, issued by the Ministry.
8. Issuance of a certificate of professional competence of a person with a certificate of specialist knowledge in the field of ADN.

8.2.2.8.2 and 8.6.2 ADN
We should always keep in mind that the correctness of the equipment, the training of the employees and the compliance with the procedures are the conditions for the safe transport of dangerous goods.

And now, small avard for kind attention
Thank you

Ministry of Construction, Transport and Infrastructure
Department for Transport of Dangerous Goods
