

**SAVE THE DATE**

**DAC Demonstration for SEE**

**Digital Automatic Coupler Demonstration for South East Europe**

**Belgrade, 14 September 2023**

We are excited to invite you to the follow-up of the **Rail Innovation Workshop** held in Nis in 2022 and 1<sup>st</sup> of a kind DAC Demonstration event in South East Europe focusing on the Digital Automatic Coupler which will bring together cargo operators, wagon keepers, industry experts, researchers, and innovators in the rail sector to explore the latest advancements and developments in digital automatic couplers.

Digital Automatic Coupling (DAC) is an advanced technology used in the rail industry for the automatic coupling and uncoupling of rail vehicles. It is a standardised system that enables seamless and efficient connections between locomotives, wagons, and other rolling stock.

The **Transport Community Permanent Secretariat**, in Cooperation with **DAC4EU** and **Serbia Cargo**, are jointly organising the **Digital Automatic Coupler (DAC) Demonstration for South East Europe** in **Belgrade, on 14 September 2023**, supported by the **Government of Serbia**.

Join us for a day filled with insightful presentations, interactive discussions, and networking opportunities with leading professionals in the field. The Demonstration aims to foster collaboration and knowledge exchange to drive the future of railway technology.

Mark your calendars and stay tuned for further details on the agenda, speakers, and registration process. Don't miss out on this exceptional opportunity to be a part of the conversation shaping the future of rail transportation.

For registration, please fulfil the form on the following link: <https://forms.office.com/e/QcMPUd1Pry>

We look forward to seeing you there!

Best regards,

Matej Zakonjšek

Director

Transport Community Treaty Permanent Secretariat
