Beginnings

STSA - founded on September 1st 2010

Reasons for Establishment

- Greater roles for universities, societies, institutes, ...through membership in the agency council.
- Greater efficiency and rationalization in state administration by merging staff, finances, knowledge, and experiences within the agency.
- Enhanced professional independence.
- Reduced need for budget financing.
- The agency's analyses and research lay the foundation for more cost-effective planning, implementation, and evaluation of key national traffic safety processes.

Legislative Basis

- The Drivers Act
- The Motor Vehicles Act
- The Roads Act
- The Road Traffic Rules Act

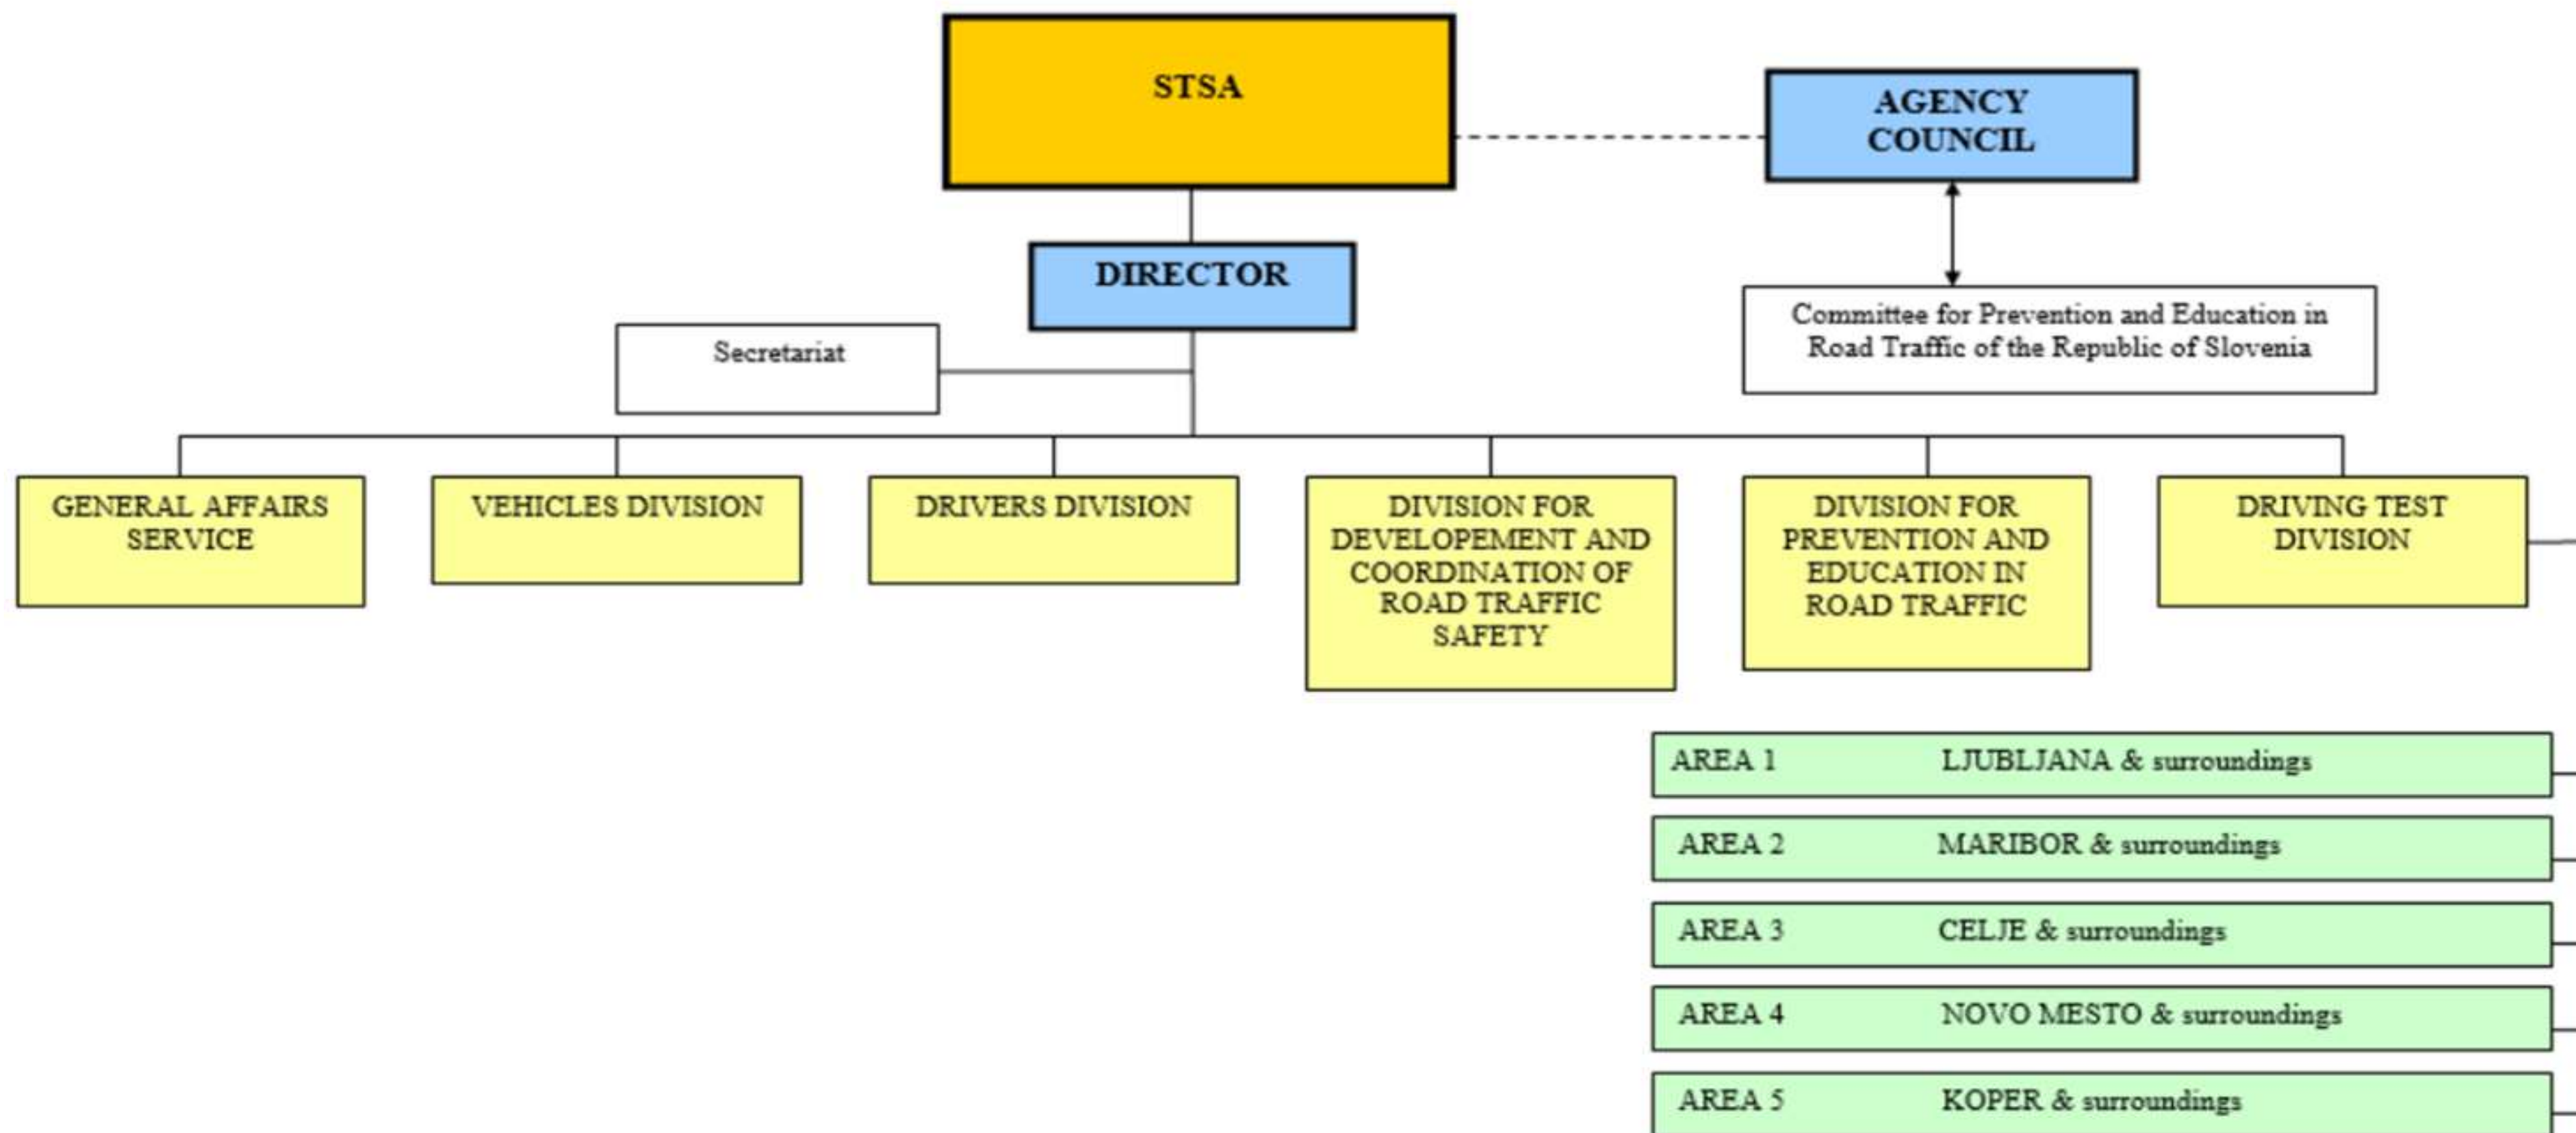

- Decision for establishing the Slovenian Traffic Safety Agency

Legislative Basis

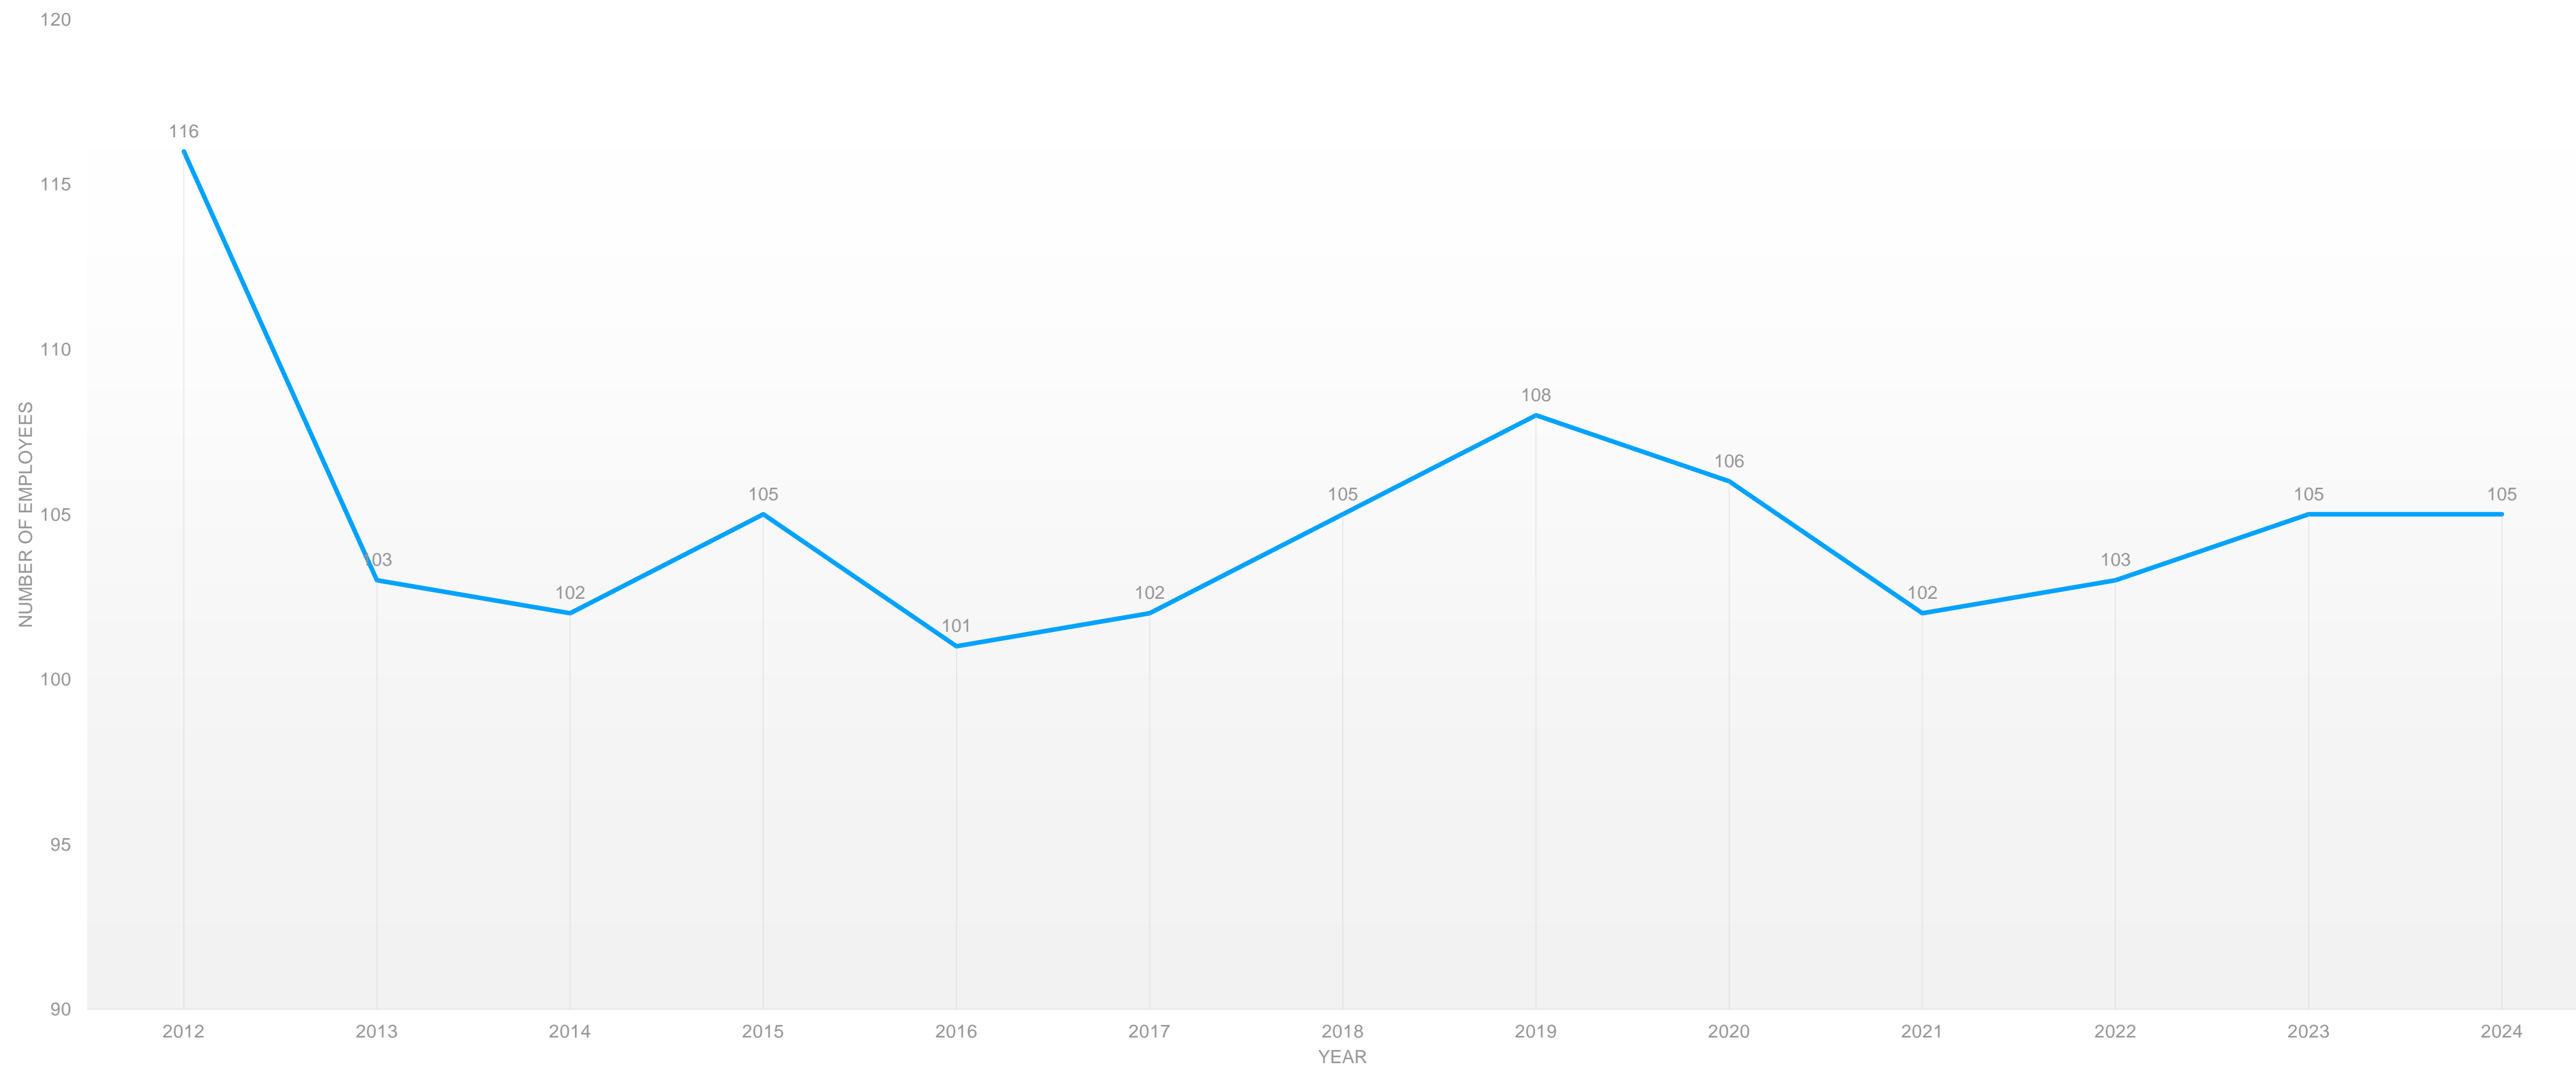

The agency performs:

- regulatory, developmental, expert and other tasks in the field of drivers and vehicles,
- the conduct of driving tests,
- analytical-research assignments in the field of road traffic safety, prevention, education and training in road traffic,
- independent investigation of factors contributing to the occurrence of traffic accidents with lethal casualties,
- expert assignments for preparation and implementation of a national road safety programme.

Organizational structure

Employees

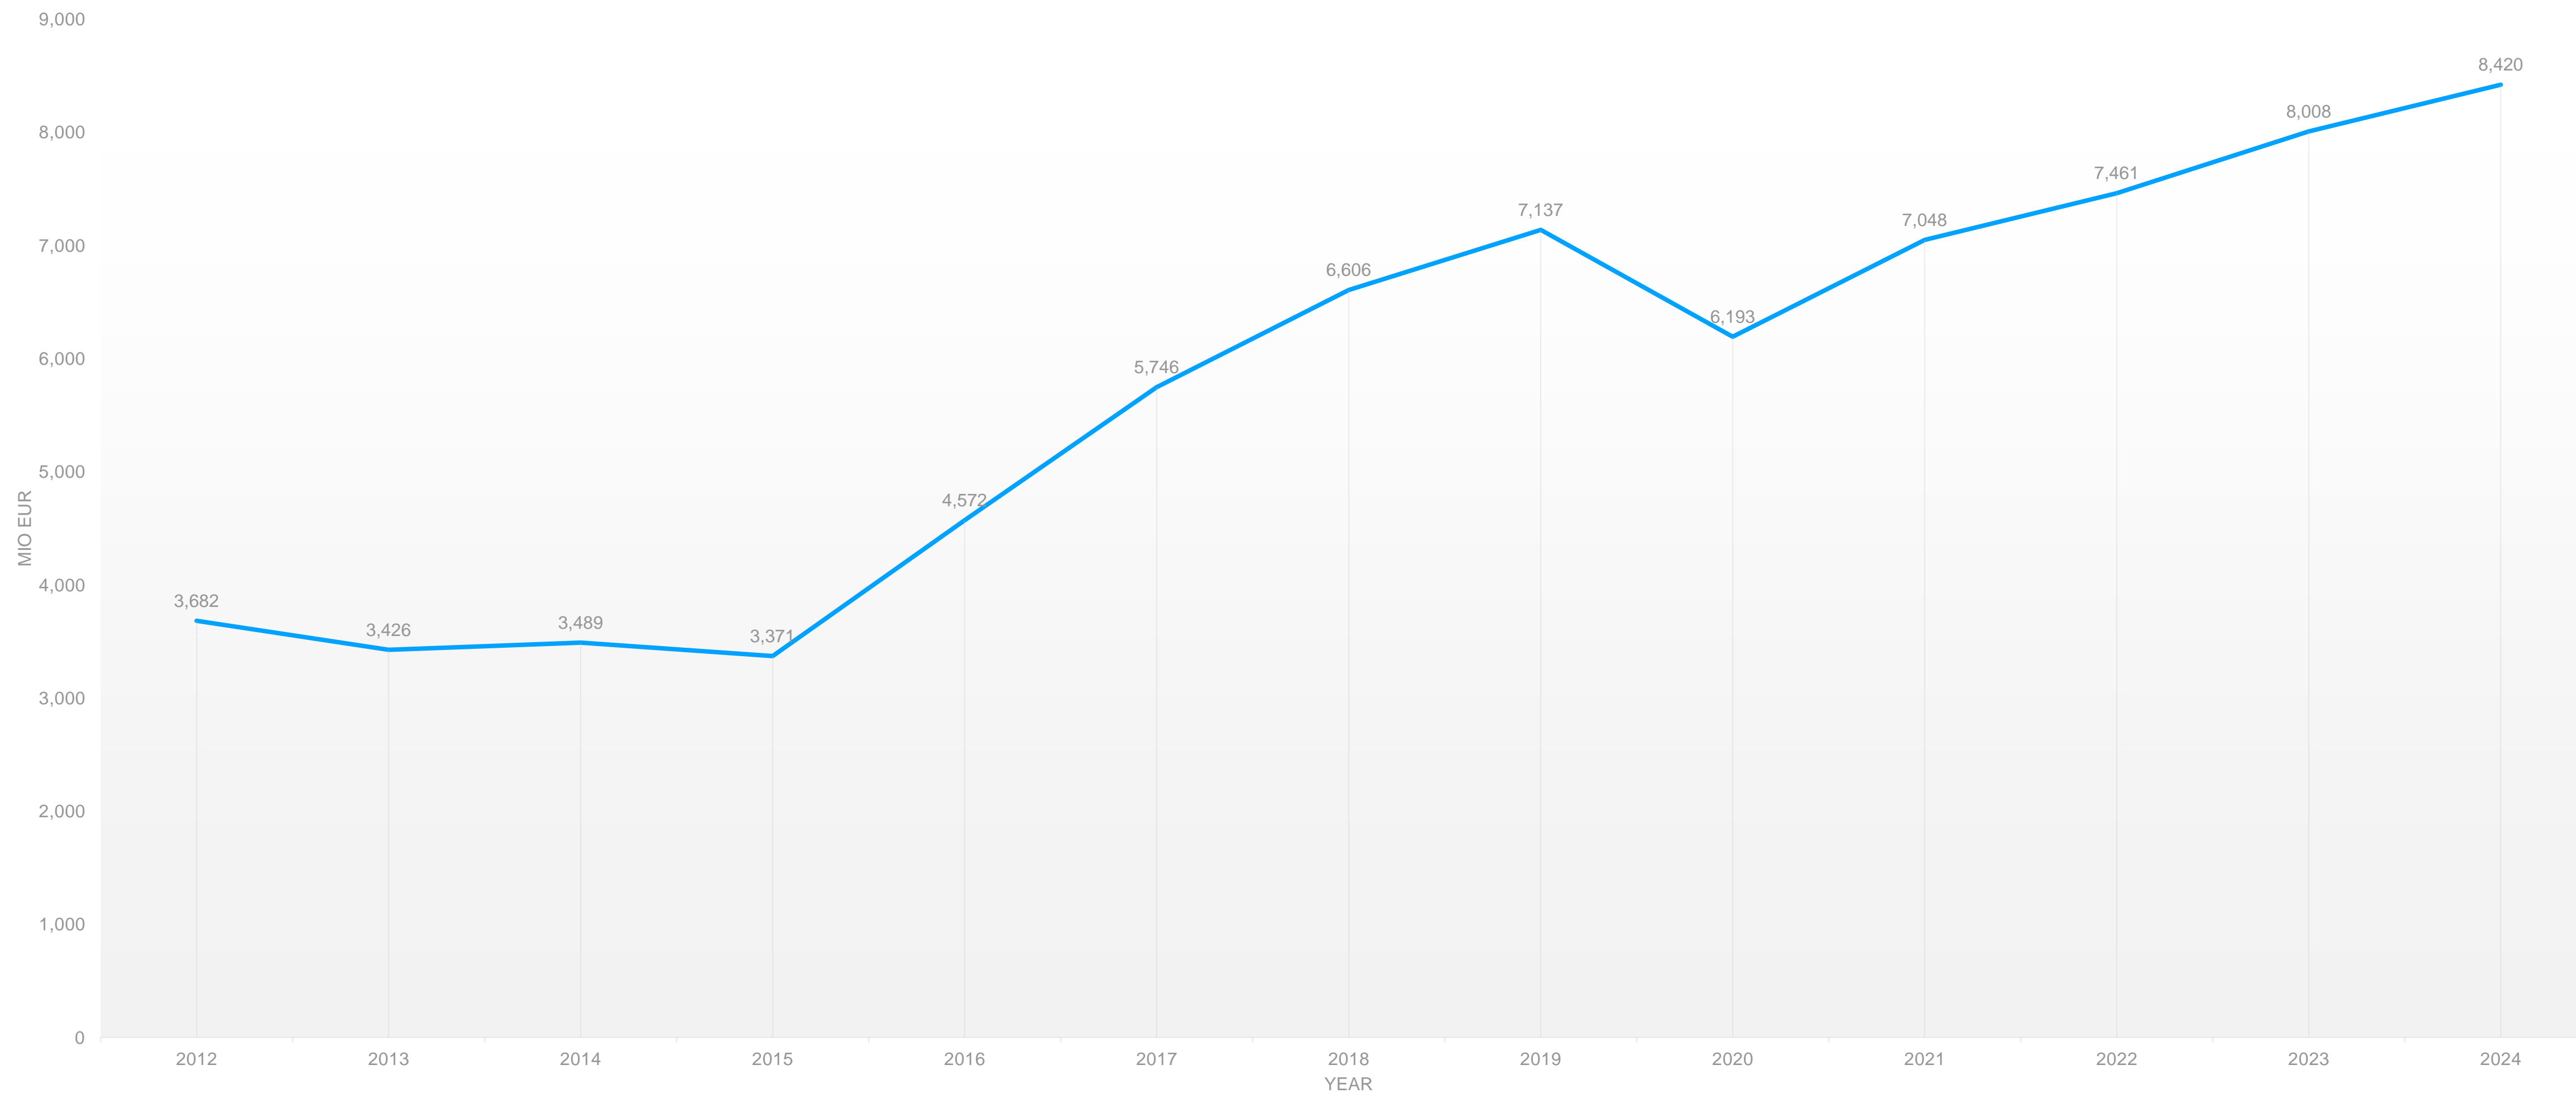

Finance

The agency is financed:

- From state budget funds: 82% of the agency's total budget;
- From revenues generated from selling goods and services on the market;
- From other income: 18% of the agency's total budget (the agency sets tariffs for its services to individuals and legal entities).

Budget in million EUR
