between economic centers (and ports)

The ÖBB Group I Holding Structure

Status: July 2023

This organigram contains a sample of important subsidiaries within the ÖBB corporation.

OUR COMPREHENSIVE RANGE OF SUSTAINABLE

END-TO-END LOGISTICS SERVICES

Wagonloads & Logistics

Customised end-to-end solutions

for industrial products from A to Z with single wagons and customer-specific block trains as well as multimodal.

Operator / Intermodal Logistics

High-frequency TransFER connections for intermodal loading units transporting between urban centres, industry regions and ports for goods of all kinds.

ROLA

Entire trucks and trailer trucks

cover parts of their routes on the rolling road.

Railway Undertakings

Significant market advantage for our customers thanks to our **own traction services in twelve countries**.

Wagon Rental/Sales

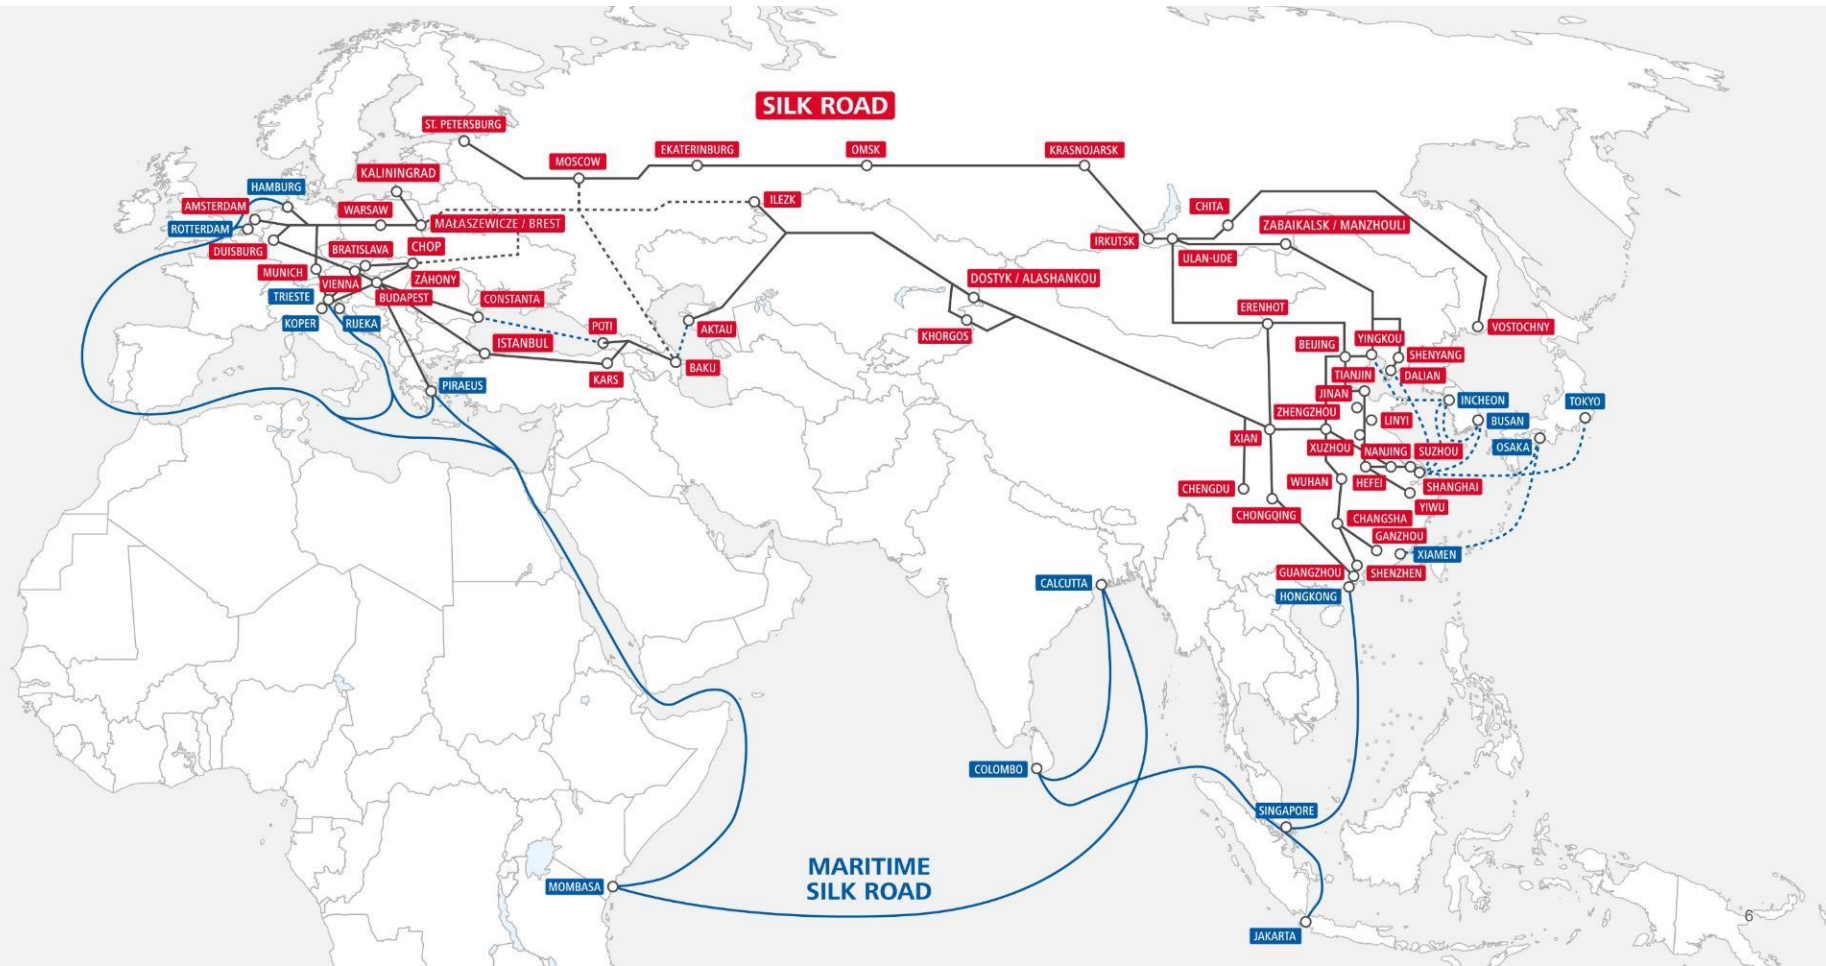

Our new wagon material sets new standards in rail logistics. Bundled wagon management delivers precise logistics solutions.

Technical Services

Proactive maintenance concepts guarantee maximal functionality and vehicle availability.

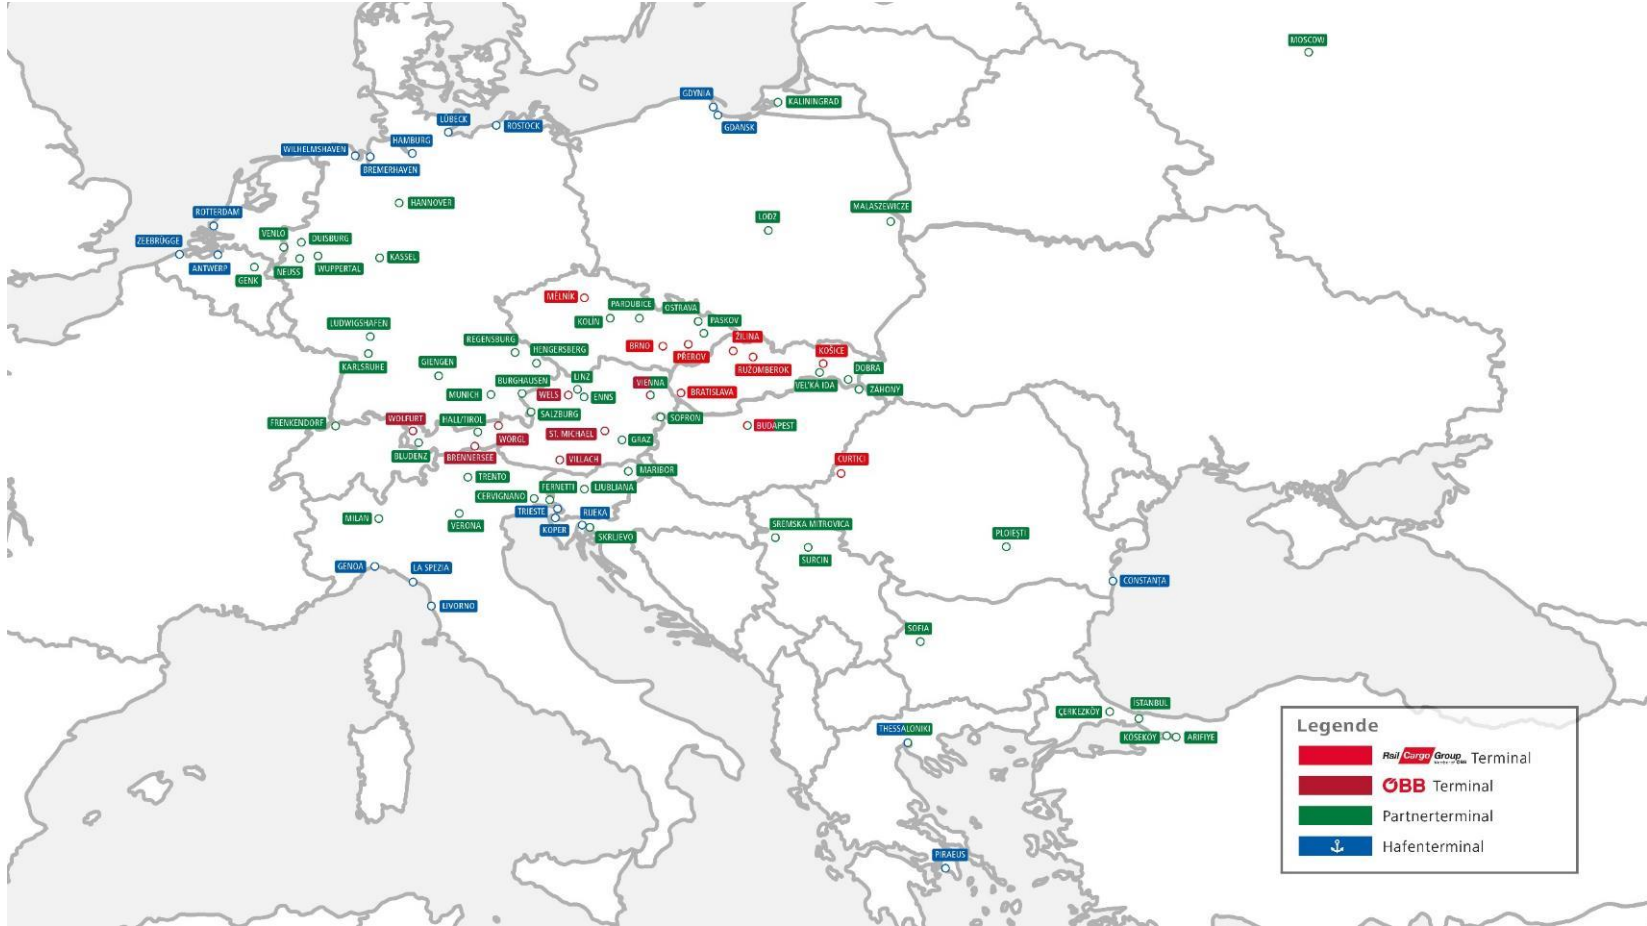

TransNET | Our network of TransFER connections, combinations and individual routes from Europe all the way to Asia.

RCG logistic network | 16 countries

RCG logistic network | Our terminals are strategically positioned at logistical hubs

Warehouse locations and services

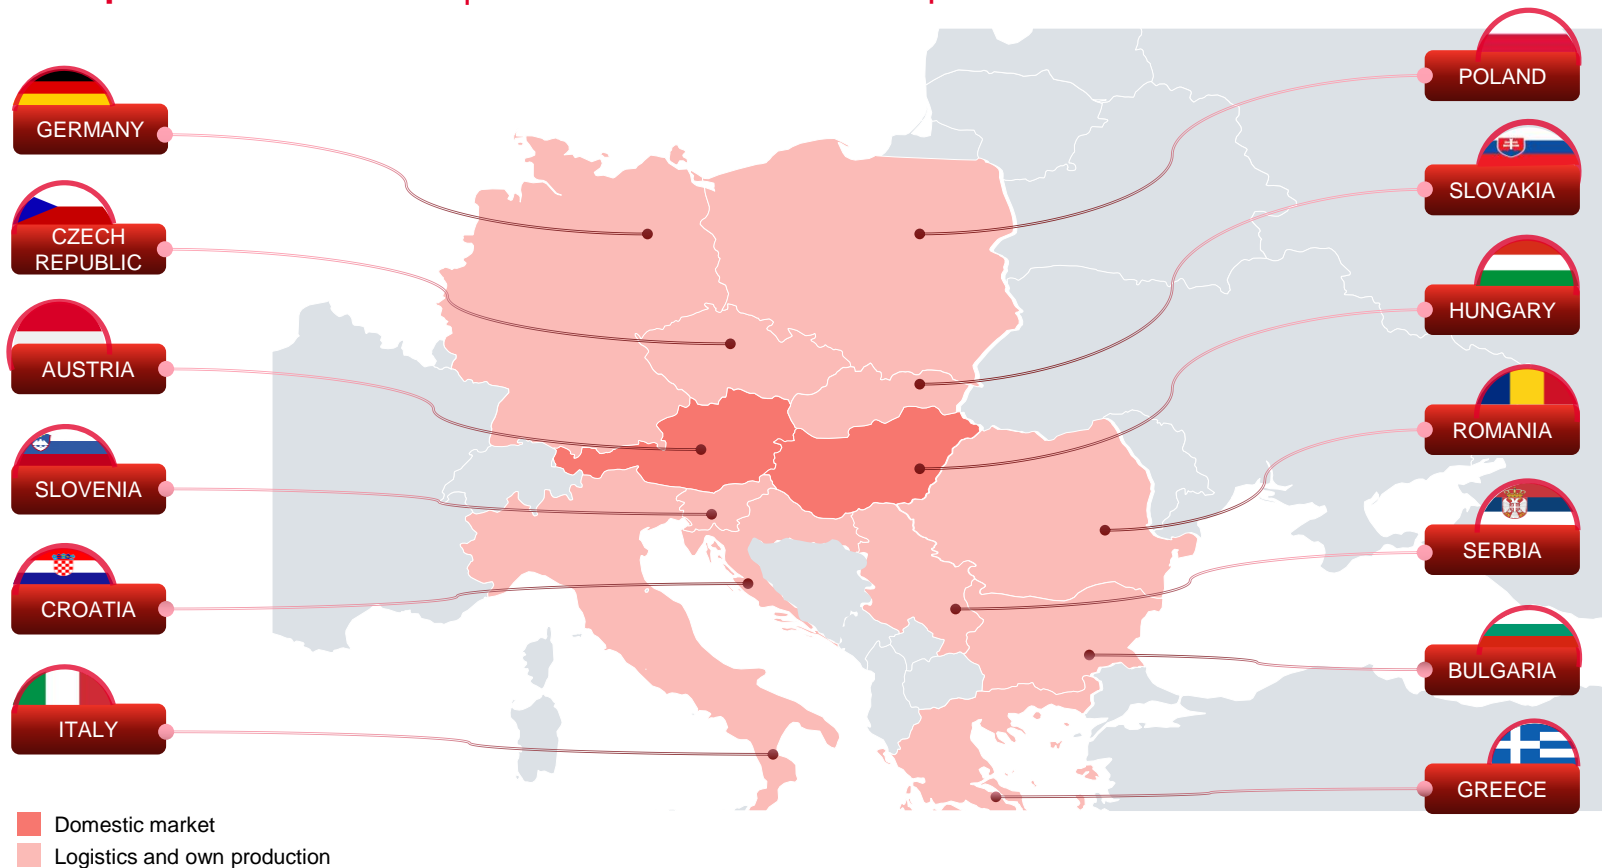

In our Europe-wide logistics centres, we offer space for the temporary storage of your goods.

In addition, we take over the entire storage of your goods for a certain time period.

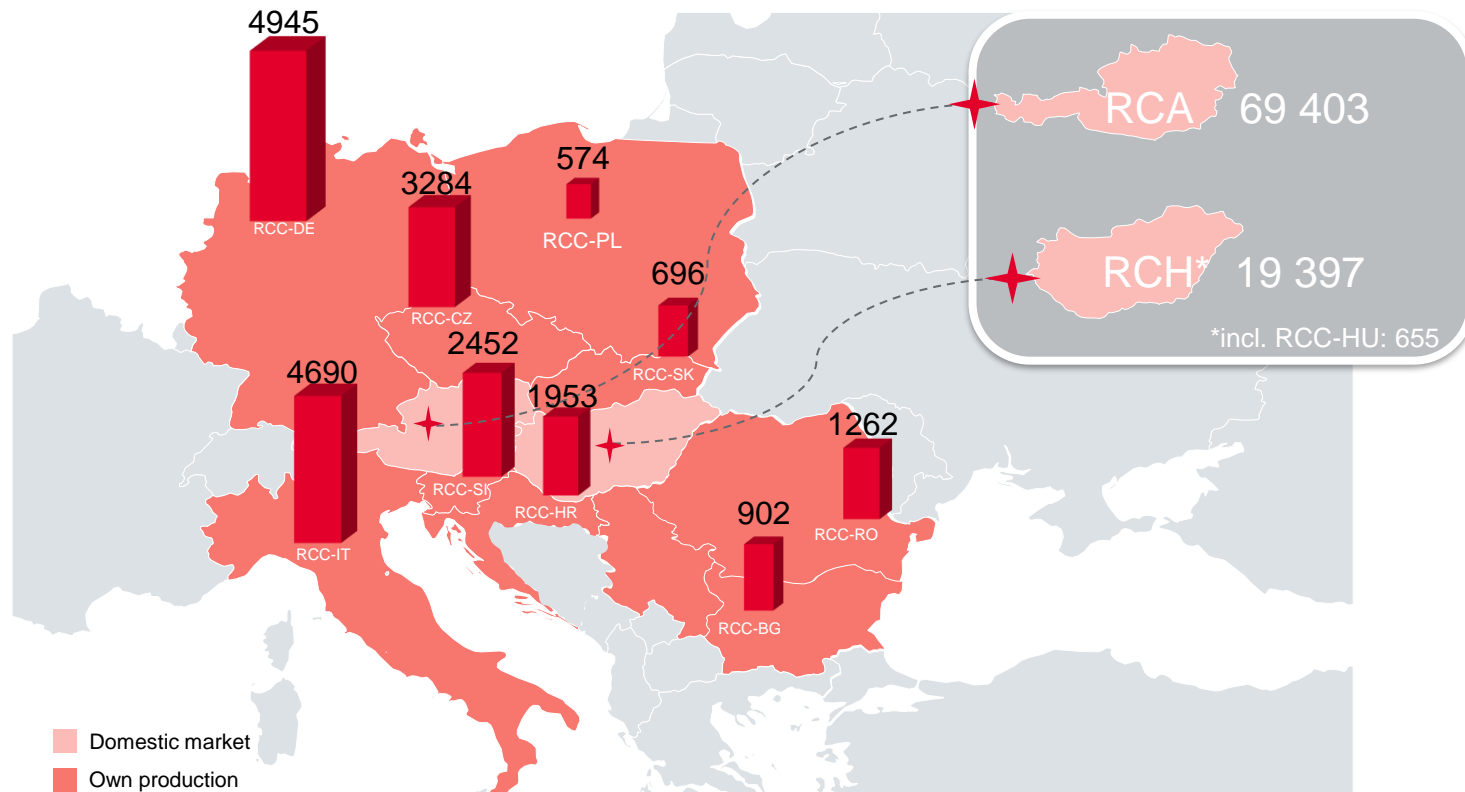

We also carry out cross-docking activities such as incoming goods and quality checks, order commissioning, labelling and final distribution at these centres.
