1.	Dear Sir/Madam, The financial format offer should be filled in with the unit prices, with and without VAT. My company is subject to VAT. The total amount is 10,000 euros. In other Transport Community bids, it was stated that, for the evaluation, the total amount without VAT is considered. If so, why is the amount including VAT required? If I put 10,000 euros without VAT in my offer, the total amount including VAT is 12,000, and my offer might be disqualified. My point is that I don't want to offer above the budget limit of 10,000 euros. Could you clarify this point?	The financial offer shall indicate the applicable unit/day rate excluding VAT, the corresponding VAT amount, and the total amount including VAT, as specified in the Financial Offer template. For the purposes of financial evaluation and application of the maximum contract value of EUR 10,000, the amount excluding VAT shall be taken into consideration.
