| 1.  | Is it allowed to aggregate annual turnover from two or more companies in the tender consortium, or is it mandatory for each company to fulfill this condition for 2023- and 2024-year average, or it is satisfactory if only the leader of consortium fulfils this criterion? | <p><b>The minimum average annual turnover requirement for 2023 and 2024 must be fulfilled by at least one member of the consortium individually.</b></p> <p><b>It is therefore not necessary for every consortium member to meet the requirement, nor is it sufficient to aggregate the turnover of several members if none of them individually fulfils the minimum threshold. The consortium leader is not required to meet the criterion specifically, provided that another consortium member fulfils it.</b></p> |
